Spinning-wheel Premium Entitlement Lists. As part of a government scheme to encourage the linen trade, free spinning-wheels or looms were granted to individuals planting a certain area of land with flax. The lists of those entitled to the awards, covering almost 60,000 individuals, were published in 1796, and record only the name of the individual and the civil parish in which he lived. As might be expected, the majority, over 64 per cent of the total, were in Ulster, but some names appear from every county except Dublin and Wicklow. In the county-by-county source-lists only those counties with significant numbers (more than 3,000 names) include a reference. A microfiche index to the lists is available in the National Archives, and the Public Record Office of Northern Ireland.

COUNTY OF DONEGAL.

A LIST of PERSONS to whom PREMIUMS for sowing Flax-seed in the Year 1796 have been adjudged by the Trustees of the Linen Manufacture.

Pursuant to the Scheme offered by them for encouraging the Growth of FLAX throughout the Kingdom, viz. "To the Person who should sow between the 10th Day of March and the 1st Day of June 1796, with a sufficient Quantity of good sound Flax-seed, any Quantity of Land, well prepared and fit for the purpose, not less than 1 Acre—4 Spinning Wheels,—3 Roods 3 Ditto,—2 Roods—2 Ditto,—1 Rood—1 Ditto. And to the Person who should sow in like Manner any Quantity of like Land, not less than 5 Acres, a Loom, or Wheels, Reels, or Hatchells to the Value of 50 Shillings, and for every 5 Acres over and above the first five a like Premium."

The Claimants for one Rood, who are entitled to one Wheel each, are requested to apply to the County Inspector Mr. Robert Cochran, for their Wheels, there being a sufficient Number ready to distribute among them: The other Premiums will be discharged in Rotation as the Wheels can be made, of which due Notice shall be given.

Every Person preferring Reels may have two of them in lieu of a Spinning Wheel.

The Scheme of Premiums offered by the Board for the Year 1796, has had so extensive an Effect, that it will require 37,135 Wheels to discharge the One Rood Claimants; and not less than 88,719 Wheels, together with 227 Looms, to discharge the whole, which necessarily produces much delay in delivering.

As the highest Price is paid for the Wheels in order to have them of the best Fabric, of seasoned Timber, and of full Size; no Claimant is to receive any Wheel deficient in any respect: They are all to be stamped with the Board Seal before delivery, and with the Maker's Name.

And in order to render the national benefit proposed by the Trustees as efficacious as possible, they request that any neglect or delay of the Inspector in delivering Wheels of the best quality and equal excellence to the Pattern deposited with him, be instantly made known to them by information to any Trustee, or to the Inspector General, or by Letter to their Secretary, at the Linen-Office, Dublin.

N. B. Any Inspector, Deputy Inspector, or Surveyor, or other Person acting under him or them, who shall directly or indirectly receive any Fee, Gratuity, or Reward for the performance of his duty, becomes by such offence disqualified by Act of Parliament to hold any Employment under the Linen Board.

Prsh. of ALL-SAINTS.

By Order,

JAMES CORRY, Sec.

LINEN OFFICE.

Printed by B. & J. Williamson, Printers to the Right Hon. and Hon. the Trustees of the Linen Board.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions and activities. It emphasizes that this is essential for ensuring transparency and accountability in the organization's operations.

2. The second part outlines the various methods and tools used to collect and analyze data. It includes a detailed description of the data collection process, from identifying sources to gathering information, and the subsequent analysis techniques used to interpret the results.

3. The third part provides a comprehensive overview of the findings from the data analysis. It highlights key trends, patterns, and insights that have emerged from the study, and discusses their implications for the organization's future strategy and decision-making.

4. The final part of the document offers recommendations and conclusions based on the findings. It suggests specific actions that should be taken to address the identified issues and opportunities, and provides a clear summary of the overall results and their significance for the organization.
