Pier at Buncraft

A Report of the Board of Works Engineer relative to the condition of the Pier at Buncraft and also a Report of Mr. Ferguson County Surveyor, to the effect that he employed a Diver to examine the foundations of Buncraft Pier and that the cost of carrying out the repairs would be considerable. He made a rough estimate and found it to be about £2000.

Councillor Hanna said this was a dry land Pier, and he did not consider the County Council would be justified in paying to such a large expenditure, he thought it was much as Buncraft Pier has never been a Dintee Pier or of much general benefit or advantage to the locality, and as the County Surveyor by order of this Council has had a survey made by a Diver, whose report is kindly attached, and our Surveyor estimates the cost of repair at £2000 - we respectfully ask the agricultural Department to assist us in making an appeal to the Board of Works to modify their requirements or to grant us a subsidy to carry them out.

Street, in the Barony of Inishowen is Contractor for the piping of the road leading from Mr. Collins' Contract road to Portlough, Fanny has recently piped into a drain at the foot of the lands of William Fanny, and has thereby stopped up the drain which was there, and he then proceeded to remove a number of stones out of the boundary fence between Fanny's land and the County road, and made a new opening, and also has left Fanny's land practically unfenced. As (Mr. John A. Hamilton) has written Fanny under subject and unless the fence and the stones are restored his client will have to take such steps as he may be advised; also a drain upon the side of the County road joining Fanny's land has been left in an open and dangerous condition. The drain has recently been made over 2 feet deep, and so far as he (Mr. Hamilton) can gather, has been done for the purpose of taking water to Fanny's own house, and a drain of that depth on the side of the County road constitutes a serious danger to the public. Having been read, Mr. Pacey, County Surveyor, stated that he visited the place and was of opinion that a danger did exist. On the motion of Councillor Doherty, seconded by Councillor Mr. Arthur, the County Surveyor was directed to put matters in such a state that

we are asked to forego Rates on the new Lines, receive
7% per annum, and since the new Lines were opened have
put to reserve or spent on Capital another 7%.

4. That the Board of Works ought to have informed the Irish
Government that the effect of continuing the exemption
is to increase the Treasury's Receipts, from the Donegal
Lines by one half of the Rates now sought to be
withheld.

5. That instead of seeking to turn a free port into a profit
which for last year realised £1641 paid to the Treasury
the Board of Works should have long since advised
the Treasury to cease the exacting of the 5% charged
on the Landed Line.

6. That instead of agreeing to continue the exemption
from County Rates for 7 years more, this Council
claims a re-valuation on the old Lines that are
now earning some 50% per annum on the invested
Capital.

Councilor Daniel O'Connell having decided the matter was

Shore Road at Mountcharles

Mr. O'Sullivan County Surveyor reported that to make a repair of the breaches in this road that would have any chance of standing would require about £29, but he wished to point out that he could not in any way guarantee this kind of repair standing for any length of time in this situation, as everything depends on the nature of the weather. Were a strong gale to occur shortly after the completion of a repair, as above referred to, the money would in all probability be to a large extent lost. Fearing this so strongly he had been reluctant to adopt a course that would be likely to result in a loss of money, and he considered it would be more economical in the long run to execute these repairs in a manner that one could hope for proving permanent. To do this would require about £62. The Council decided to take no action.

County Surveyor's Office, Derry

17th October 1912

The Secretary, Derry Co. Council,
 Lifford.

Dear Sir,

Kindly bring this letter before meeting on

22nd inst.

Since 18th date of my appointment to the Office I have been through a good deal of the District and am convinced that there is no location which offers the same facilities for working this Division as Berrig.

There are early train services from Berrig that enable me to reach, with least loss of time, all parts of the District which is not the case from other points.

On two occasions when staying at Ables in other parts I found it necessary to get back to Berrig before I was able to get a start for my day's work, and the lateness of the connections I could then make prevented my return. Whereas had I been living in Berrig I could have obtained earlier trains and readily accomplished the end I had in view.

I am anxious to do all I can in my new District, and it is of the greatest importance that I should have the maximum facilities for working in order that

Copy of the Council's decision to the Secy. on 21.10.12

Very faithfully,

Neglect of Contract

Mr. O'Donnell, Co. Surveyor, submitted a Report to the

There are some maintenance contracts in which
he found it very difficult to get the work carried out
by the Contractors. Prosecution would not be
a solution wherever the principle and his duties
are not made for the Deceit as the work would
only fall upon the County. The only solution
would be the 5th Dec. 62y W. IV, provided a
Council were adopted for paying weekly or
fortnightly by time sheet rendered to the Secretary,
Certified by the Co. Surveyor in behalf of the work
the employer to do any urgent repairs in
such cases

This would necessitate a sum being
transferred to the Subsidary A/c. for this purpose
and as the money would in such cases be
shut off the Contractors concerned (whose names
appear in the Co. Book) then Council, he recommended,
would not entail any loss to the County

considerable mileage of roads throughout the County.
as

as a result of their consideration they had formed the
opinion that the sum which they were prepared
at the present time to grant towards the cost of
improvement work in Ireland would be best employed
in contributions to aid the improvement of certain
lengths of road. Part of the mileage to the improvement
of which the Board were disposed to contribute
was situated in Co. Donegal, and they wished to
know whether the Co. Council were prepared to
undertake the improvement of the selected lengths
of road with the assistance of a suitable grant
from the Road Board, and to take steps to obtain
the consent of the R.D. Councils whose consent might
be necessary. The improved length would have to be
subsequently maintained to the improved standard
by the highway authorities. It was the intention of
the Chairman of the Board to come to Ireland,
accompanied by the Engineer to the Board and to
spend there the week commencing 13th inst. for the
purpose of conferring about the matter with
representatives of the various highway authorities
concerned. On that day and the following day they
would be in Belfast, and they would be glad to
know whether it would be convenient for the Chairman

two County Surveyors to be present and requesting
the Secretary to send a copy of his (Mr. O'Meara's)
letter as well as a copy of the Road Board's

Road Board Grant

a Statement received from Mr. R. D. Ouse A. M. J. C. &
 Engineering Experts, the Road Board, showing proposed
 expenditure on the improvement of various roads
 in Co. Dougal with aid of Road Board Grant
 having been put into it was unanimously resolved
 on the motion of Councillor Hanna, seconded
 by Councillor M. O'Brien that the Scheme as
 submitted by the Engineering Experts, the Road Board,
 be adopted.

a Deputation consisting of Messrs
 Michael Maguire Esq. Ballypharman, Mayor Reynolds and
 J. Evans, Ballypharman attended as representing the

Ballypharman

Ballyshannon District of the Rural Sanitary Roads Improvement Association.

Mr. Maguire stated that the Ballyshannon District had only got £600 from the Road Board and in return for that they had to raise another £600. In this district there was, it was generally admitted, five times more motor traffic than in ^{any} other part of the County. They did not desire to upset the arrangements already made by the Co. Council but they asked them to pass a resolution requesting the Road Board to grant an additional £2,000 out of the unallocated money which at their disposal to Ballyshannon R.D.

After duly considering the matter it was proposed by Councillor Cassidy and seconded by Councillor Hanna and unanimously resolved that we request the Road Board to grant to Ballyshannon Rural District an further grant of £2,000 in addition to the sum of £600 proposed to be allocated to said Rural District, nothing in this resolution to be taken in any way curtailing the proposed grant to other Rural Districts in the County.

Mr. O'Shannon County Surveyor reported that the Rural Districts of Dunblawen, Milford and Berry St. 2. have all agreed to raise the necessary rate to enable them to participate in the Road Board Grant. An Engineer from the Road Board has recently been taking particulars with respect to the miff to-morrow road, and as far as he can judge appears to think that a Grant should be made with this road, and the airfield roads taken up on the next Grant so as to avoid cutting up the money into too small sums. The report was approved.

Road Committee

Mr. O'Shannon County Surveyor also reported that he considered it would be of great advantage, as well as affording relief and a saving of time at a County Council meeting were a Road Committee formed to deal first hand with many matters affecting Road work.

- (1) For instance there will be frequent references respecting the work involved by Road Board Grant.
- (2) The advisability of forming a second

Stonebreakers, and working of same (3) the question of changing from the present system to hiring the Rollers at so much per day to Contractors. (4) The working of the plant generally and various other matters connected with Road work that occur from time to time. The Report was also approved and the following Committee appointed.

Councillors Dunlop, W. Faragher, Ballyshannon, Clarke, Edmond, Faragher, Hanna, Loney, Mulhern, McCarthy, & Mr. Bennett.

Copies of resolutions passed by Ballyshannon District, Dunblawen, and Omeagher, deciding to take advantage of the Road Board Grant, and agreeing to curb a rate being struck as well as their respective Contributions, were read.

with the Tuberculosis Office for the Central Dispensary, and also gave plans and detailed Estimates of Cost to be prepared for the Board of Commissioners having been read, Dr. Regan, the medical Tuberculosis Officer, who was present, stated that he had visited Carraduff, Dargave, and Rathmully, with a view of ascertaining if suitable sites for hospitals could be obtained at the respective places, as per the Council's Scheme and he considered the most suitable site would be one a short distance outside Rathmully, the situation being very favorable, and being in close proximity to the sewer from the asylum, and that a good supply of water from the Town main could be obtained. In view of the Local Govt. Board's letter above referred to the Council decided to, in the meantime, establish one Central Dispensary and they unanimously resolved that the Local Govt. Board - being that they have to approve of such Institution - be asked to send down their medical Inspector to inspect the proposed site in company with Dr. Regan and any of the Local County Councillors who may be available. Dr. Regan in the meantime to ascertain from the owner of the plot if he would be prepared to let the County Council have it and on what terms.

A letter, dated 17th January 1913, from the Local Govt. Board on the subject of the Schemes which are in course of preparation for the establishment of Dispensaries and Sanatoria, was read.

Harbour Works: Buncrana, Rathmully & Burtisport
A letter, dated 20th Oct 1912 from the Congested Districts Board forwarding copy extract from a letter read from the Development Commissioners with regard to above subject together with copy of a report made by the Commissioners to His Majesty's Treasury on the same subject and requesting the views of the Dargave Co. Council thereon, having been read,

Councillor Hanna referred to the following terms and conditions ^(band 2) mentioned in the copy of the report made by the Commissioners.

Buncrana & Rathmully

"No

The Commissioners now recommended that for the execution of the works proposed at Buncrana and Rathmully, in accordance with plans approved by the Congested Districts Board for Ireland and the Irish Board of Public Works.

Their Lordships should advance to the Board of works, by way of grant from the Development Fund such sum as may be required, not exceeding £25,000 on the following terms and conditions:

(a) That the Dargave County Council contribute the sum of £10,000.

(b) That if the sum of £25,000 prove insufficient for the completion of the works, the County Council shall provide for their completion without further recourse to the Development Fund.

(c) That the County Council or other responsible body undertake to provide for the permanent maintenance of the works when constructed.

Burtisport

In addition to Buncrana and Rathmully, the Commissioners have recently had considerable discussion with the Congested Districts Board concerning works at Burtisport. The Commissioners are prepared to accept the proposals now submitted and accordingly recommended that for the execution of the works proposed at Burtisport, in accordance with the plan approved by the C.D. Board and the Board of Public Works. Their Lordships should advance to the latter Board such sum as may be required not exceeding £5,000 on the following terms and conditions.

(1) That the Dargave Co. Council contribute the sum of £1,000.

(2) That if the sum of £5,000 prove insufficient for the completion of the works the County Council shall provide for their completion without further recourse to the Development Fund.

(3) That the County Council or other responsible body undertake to provide for the permanent maintenance of the works when constructed.

Councillor Hanna stated the responsibility was an unknown one to them, and that being so,

he

he did not think any business body acting for the County ought to entertain it. They all knew that a big sum of extra often cropped up in contracts. They were asked to assume the responsibility of any extra that might arise, no matter to what figure they might reach.

The Secretary suggested that no action be taken pending the receipt of the plans & specification and Estimate from the Board of works when the Council could form an idea as to whether the amount at their disposal would likely be exceeded.

Councillor Hanna agreed that the suggestion was a very practical one. They could then adopt the plans and specification with the proviso that if the execution of the work incurred more expenditure than they had allowed for they would contribute in the same proportion as they contributed to the original sum.

County Accounts

The question of inviting terms for the County accounts having arisen owing to the change in payment of Road Contractors from Quarterly to Half-yearly, and after some discussion it was resolved that the Secretary obtain from the present Treasurer a statement showing Debit and Credit Interest from the beginning of the present year, and also what amount, if any, the Bank claimed in respect of Debit interest. The Secretary was also directed to ask for terms for the Co. of. from Head office of all Banks having branches inside County.
